Jewlx Ring Size Guide

Find your size in about two minutes. Check the scale, then use **a ring that already fits** (this page) or **the paper sizer** (page 2). When you have it, go back to the ring builder and choose that size.

Lay a bank card or driver's licence here.

It should cover this outline exactly, edge to edge.

1 Check your print

Card matches the outline? You're ready.

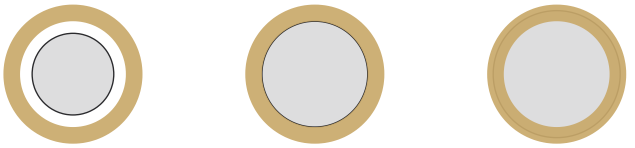

Doesn't match? Print again with scale set to **100%** or **Actual size**, never "Fit to page". A shrunken page can put you a full size off.

Measuring on a phone or computer screen won't work. Screens are not true to size.

OPTION A

2 Have a ring that fits?

Use one worn on the same finger. Lay it flat on the circles until the circle's edge just meets the inside of the band.

Try a bigger circle paper shows inside

Your size edge meets the band

Try a smaller circle edge hides under band

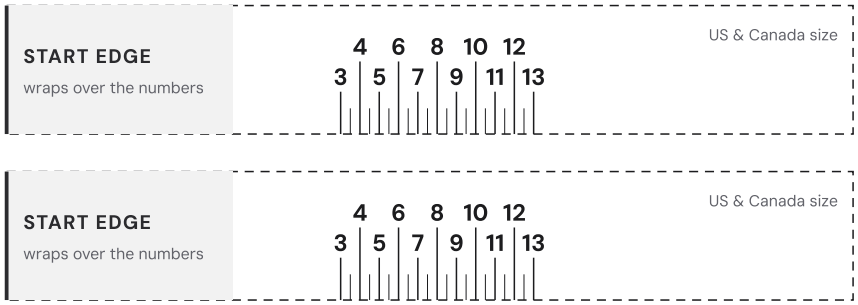

3	3½	4	4½	5	5½	6
14.1 mm	14.5 mm	14.9 mm	15.3 mm	15.7 mm	16.1 mm	16.5 mm
6½	7	7½	8	8½	9	9½
16.9 mm	17.3 mm	17.7 mm	18.1 mm	18.5 mm	18.9 mm	19.4 mm
10	10½	11	11½	12	12½	13
19.8 mm	20.2 mm	20.6 mm	21.0 mm	21.4 mm	21.8 mm	22.2 mm

Between two circles? Choose the larger one. **Found it?** Choose that size in the ring builder.

Jewlx Ring Size Guide

OPTION B

2 No ring? Use the paper sizer

1. Cut out one strip along the dashed line. The second is a spare.
2. Wrap it around the base of the finger, numbers facing out.
3. Lay the shaded START edge over the numbers. Snug, but it must still slide over the knuckle.
4. Your size is where the START edge lands. Between two lines? Take the larger.

Buying it as a surprise?

- **Borrow a ring** your partner wears on the same finger and match it to the circles on page 1. Put it back before it's missed.
- **Can't take it?** Press it into a bar of soap or trace the inside on paper. Your jeweler can read the size from that.
- **Ask a close friend or family member.** They often know, or can find out.
- **Still guessing?** Most engagement rings are sized 5 to 7. Lean slightly larger: making a ring smaller is easier than making it bigger.

Get the fit right

- **Measure at the end of the day.** Cold fingers in the morning read small.
- **Measure three times.** If the results differ, use the larger.
- **Wide bands fit tighter.** For a band 6 mm or wider, go up half a size.
- **The right fit** slides over the knuckle with a little resistance and doesn't spin.
- **Diamonds all the way round?** Eternity bands can't be resized, so have these sized in store.

mm Size chart

US & CA	UK & AU	EU	Diameter mm	Around mm
3	F½	44	14.1	44.2
3½	G½	45.5	14.5	45.5
4	H½	47	14.9	46.8
4½	I½	48	15.3	48.0
5	J½	49.5	15.7	49.3
5½	K½	50.5	16.1	50.6
6	L½	52	16.5	51.9
6½	M½	53	16.9	53.1
7	N½	54.5	17.3	54.4
7½	O½	55.5	17.7	55.7
8	P½	57	18.1	57.0

US & CA	UK & AU	EU	Diameter mm	Around mm
8½	Q½	58	18.5	58.2
9	R½	59.5	18.9	59.5
9½	S½	61	19.4	60.8
10	T½	62	19.8	62.1
10½	U½	63.5	20.2	63.3
11	V½	64.5	20.6	64.6
11½	W½	66	21.0	65.9
12	X½	67	21.4	67.2
12½	Y½	68.5	21.8	68.5
13	Z½	69.5	22.2	69.7

Measured with string or a tape? Wrap it once around the finger, measure the length in mm and find the nearest "Around" value.

Found your size? Go back to the ring builder and choose it.
Still not sure? The builder's size guide can help, or ask your jeweler before you order.
